PROJECT DURATION:
Starting Date: 1 December 2016
Ending Date: 30 November 2017

OBJECTIVES OF THE PROJECT:
- Present relevance and importance of continuous education
- Building-up knowledge and skills among technicians and engineers
- Promotion of Action Leakage Control & Water Loss Management
- Organization of an annual competition – maybe extend to region

RESULTS ACHIEVED BY IMPLEMENTING THIS PROJECT:
- Participation of 13 people from 10 water utilities in Croatia
- Creating team spirit and friendship within each utility and between other utilities
- Creating competitive spirit as foundation for motivation in regular daily activities

ACTIONS TAKEN TO ESTABLISH THE LEAK DETECTION COMPETITION

- Promotion of the event on national events in Croatia
- Approaching water utilities directly to promote competition
- Lobbying in Croatian Association of Water and Waste Water Utilities
- Demo competition in October 2016 with 3 water utilities
- Final leak detection competition took place in September 2017
